

I believe these to be two simple Home Business CUP applications. They will have minimal traffic due to this business as they are a 1-to-1 practice.

Britney Peterson-A CUP for Holistic Health to be done out of the home. The practice is usually a 1 to 1 practice and has 4 parking spaces. The address also currently has a RSTR CUP. This is an existing home that has met a previous CUP application.

Nicholas Wasierski-A CUP for a wellness and bodywork home business. While Nick does not own the property he is in residence and has the owner approved signature. The practice is usually a 1 to 1 practice and has 2 parking spaces.

Robison Lane-FYI- it has been found out that the Town has in fact been receiving money from UDOT for this section of street. I have spoken to Annette and Shawn about dedicating a portion of their property so we can officially have a ROW showing the exact dimension. The next step is for the town to get surveyed and reaffirm with the two property owners to have this legally done properly.
