RE: Water well drilling

To Whom It May Concern

We have received paperwork from Mr. Andy Rice that the State of Utah has given permission for him to construct a well located at:

South 1104 Feet, West 1025 feet from the E4 Cor, Sec 26, Town 33S, Range 4E, SLB&M

Andy has contacted our company and sent the required Driller Start Card for water right 97-2507 and our intent is to drill this well in the coming months on his property in Boulder UT.
