RE: New mutt mitt station at the Boulder Town Park

Date: October 5, 2023

Dear Mayor and Council members,

Recently I read the notice (from 2016!), on the Town bulletin board stating the Town's concern regarding dog waste at the Town Park. As a dog owner and frequent visitor to the park I share your concerns.

A group of dog owners would like to purchase and donate a mutt mitt station to the Town. This station could be located in the park near the rest rooms and garbage can. We can confer with Corry on the most convenient location. We feel that if dog poop bags were handy at the park the problem would be lessened.

The unit we are considering is from Uline, https://www.uline.com/BL_8262/Dog-Waste-System (without the attached waste receptacle).

We would supply 400 mutt mitt bags with the station. Additional bags cost \$55.00 for 10 boxes of 200 bags. We imagine the town already buys poop bags for the mutt mitt system near the playground and could refill both stations on an ongoing basis.

We are happy to help resolve this issue to keep the Town Park clean and dog friendly.

Sincerely,

Lisa Varga, the Boulder black and white collies and their people
