AMENDMENTS TO CHAPTER 153

SECTION 153.011 DEFINITIONS

ADD the following definition:

ADMINISTRATIVE LAND USE AUTHORITY (ALUA). The individual, board, consultant, or commission formally appointed or employed by the Town, including members of staff or the Planning Commission. The ALUA does not include the Town Council or a member of the Town Council.

REPEAL the following definitions:

~~**Lot.** A lot is any area of land that is separately demarked on a recorded subdivision plat, whether called a lot or not.~~

~~**Lot Line Adjustment.** A lot line adjustment occurs when the owners of adjoining lots within a recorded subdivision agree to change lot lines or when the owner of a lot within a subdivision agrees with the owner of an adjoining parcel to change boundaries between the lot and the parcel. A lot line adjustment cannot create a new parcel or lot. It can be used to~~

~~change the boundary between a right-of-way and adjoining lots. For the regulation of lot line adjustments, please see § 152.116.~~

~~**Parcel.** A parcel is any area of land that is not a lot. In the administration of this Code, there are no lots outside of recorded subdivisions, there are no parcels within recorded subdivisions.~~

~~**Parcel Boundary Adjustment.** A parcel boundary adjustment occurs when the owners agree to adjust the boundary between adjoining parcels. A parcel boundary adjustment cannot create a new parcel or lot. It can be used to change the boundary between a right-of-way and a parcel. For the regulation of parcel boundary adjustments, please see § 152.115.~~

~~**Subdivision.** Any land that is divided, re-subdivided or proposed to be divided into two or more lots, plots, parcels, sites, units or other division of land for the purpose, whether immediate or future, for offer, sale, lease or development either on the installment plan or upon any and all other plans, terms and conditions. Subdivision includes the division or development of land whether by deed, metes and bounds description, devise and testacy, lease, map, plat, or other recorded instrument. Subdivision does not include a bona fide division of agricultural land for the purpose of joining one of the resulting separate parcels to a contiguous parcel of unsubdivided agricultural land, if neither the resulting combined parcel nor the parcel remaining from the division or partition violates this code or a parcel boundary adjustment as defined by § 152.006(C) of this code.~~

REPEAL AND REPLACE the following definitions:

~~**REPEAL:** **DRIVEWAY.** A private roadway, the use of which is limited to persons residing, employed or otherwise using or visiting the parcel on which the driveway is located.~~

~~**REPLACE WITH:** **DRIVEWAY.** A privately owned access route serving a single lot.~~

~~**REPEAL:** **IMPROVEMENTS.** Street grading, street surfacing and paving, water mains and lines, water meters, fire hydrants, sanitary sewers, storm drainage facilities, culverts, bridges, public utilities or other such installations designated by the Planning Commission or Town Council.~~

~~**REPLACE WITH:** **IMPROVEMENTS.** Street grading, street surfacing and paving, water mains and lines, water meters, fire hydrants, wastewater systems, storm drainage facilities, culverts, bridges, public utilities, or other such installations designated by the Town Council.~~

REPEAL: ~~RIGHT-OF-WAY.~~ ~~Rights-of-Way are separately owned, generally linear areas of land that provide circulation, irrigation, or utility service to adjoining lots or parcels.~~

REPLACE WITH: *RIGHT-OF-WAY.* The legal right, established by usage or grant, to pass along a specific route through grounds or property belonging to another owner.

MODIFY: *BUILDING LOT.* ~~For the purposes of lot size averaging, a building lot is any~~ Any lot that is not separately demarked for common use or open space protection and which is, thus, available for any principal use permitted in the applicable zoning district. ~~Building lots must meet the applicable average and minimum lot size established in the Table of Development Standards (Section 153.118).~~

MODIFY: *AVERAGE LOT SIZE.* ~~The average of the sizes of lots within a subdivision. This is calculated by dividing the total area of the parcel or lot being divided by the total number of building lots proposed. Lots that are separately demarked for common use or open space protection are not building lots, nor are rights-of-way, public or private. Lot size averaging may be applied to a lot or parcel only as it existed on the date lot size averaging was adopted into this Code. While not all lots need to be created at the same time, the basis for lot size averaging shall be the lot or parcel size that existed on the date this definition was adopted.~~
